CREDIT

Fox Valley Health Professionals is an approved provider of continuing nursing education by the Wisconsin Nurses Association Continuing Education Approval Program Committee, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This program will offer 2.25 contact hours. Successful completion to receive contact hours, participants must attend the entire session and complete a post test and program evaluation.

Verification of credits will be available up to one year after the program.

TARGET AUDIENCE: This program is designed for nurse practitioners, physician assistants and allied health personnel.

PURPOSE: To review how neuropsychology can serve as a resource to those providing primary care.

OBJECTIVES:

Upon completion of the program, the participant will be able to:

1. Define what is involved in a neuropsychology assessment.
2. Identify clinical concerns/questions that would result in referral to a neuropsychologist.
3. Review what is involved in a neuropsychology assessment, such as the cognitive and neuro-behavioral domains assessed.
4. Define the role of a neuro-psychologist in various situations (i.e. intervention planning, workers' compensation cases, competency evaluations, academic and psycho-social interventions),
5. Identify the benefit of neuro-psychological assessment for patients.
